SUPPORT MINYAN

From near death to a Minyan lifer

Today, Ezy's heart pumps only two things: clean blood and pure love for Minyan. As he tells the next generation of participants, "Nothing makes me richer than being a Minyannaire."

Minyan Shelanu returns hundreds of teens and young adults to a life worth living

OUR PROGRAMS

YAKOV, 24 Y

REBECCA, 33 Y

SHUA, 24 Y

It takes a village to save a child. Minyan Shelanu is that village.

Minyan Shelanu was born in response to Lakewood's growing community of disenchanted and troubled teenagers. After dropping out of school, many would deteriorate socially, emotionally and spiritually, engaging in negative behaviors such as substance abuse, promiscuity and crime, sometimes culminating in juvenile detention.

Since inception, Minyan Shelanu has always been about life after the street. As a low-profile yet highly effective synagogue and social center, we have achieved remarkable, lifesaving results. It began as a warm, nonjudgmental haven for those underserved by the rigid community model, and soon turned into a rallying point for troubled teens desperate for a bit of love, a kind word and a surrogate home.

Rabbinical luminaries and crisis professionals have come to revere Minyan Shelanu for the monumental power to save lives. Thanks to the organic connections our members form with our Rav and mentors, our minyan has corrected course for hundreds of kids, setting them on a path to Yeshiva, career, marriage and lifelong wellness.

Our Focus

Our History

SUSTAINABILITY.

We are committed to promoting a chain reaction of sustainability.

Our formulas are engineered to yield a lower density product while maintaining strength, integrity, and reliability.

Virtually Zero Waste Annually

All trim and byproduct of customization enters a recycling cycle after testing, where it is returned to a recycled form.

Repeal

Repeal's team leads our production lines that produce our specialty products, bridging the gap between the high grade of wrap and an impactful solution.

Low Density, Linear Low

LLDPE comprises of short chain branching of the molecular creating a linear fabric and lower density product. It is a blend of a lower temperature, helping us to conserve energy.

Znanje u službi kvaliteta

Šest decenija činimo da energija nađe put do potrošača. Sistemi koje projektujemo i izrađujemo su kvalitetni, pouzdani, trajni i bezbedni po ljude i životnu sredinu.

O NAMA

POGLEDAJ VIDEO

Kao prednost „Energo – Južna Bačka“, klijenti čine činjenicu da sve što im treba u elektroenergetici, mogu dobiti angažovanjem jedne firme.

To dokazuje preko 8.500 izgrađenih transformatorskih stanica svih naponskih nivoa povezanih s više od 12.000 kilometara rekonstrukcije, kao i stotine kilometara rekonstrukcije svih naponskih nivoa, kilometri kablovskih sistema, zamena ili održavanje mnoštva sistema daljinske distribucije, trafo stanica, nebrojeno mnogo radova za osvetljenje i još mnogo, mnogo toga.

Mi imamo ljude i znanje, koji će napraviti da funkcioniše.

Zahvaljujući znanju, iskustvu i kreativnosti naših stručnjaka, više od pedeset godina

Neprestano usvajanje novih znanja, sertifikata i licenci, kao i praćenje najnovijih svetskih trendova u oblasti elektroenergetike, termoeenergetike i obnovljivih izvora energije, omogućavaju nam da iz godine u godinu, naša leaderska pozicija u regionu bude neupitna.
